Re: Freedom of Information Act (FOIA) Request (EPA-R2-2013-010189)

Dear Mr. Berrigan:

This letter is in response to your FOIA request dated September 23, 2013. We regret the delay in this response which is partly due to the government shutdown that occurred last October. I am the EPA remedial project manager and provide oversight for the Superfund cleanup at Picatinny which is managed by the Army. There are an abundance of 2013 environmental/remediation reports or records associated with the Superfund cleanup at Picatinny. It would not be practical to copy all of these documents and send them to you by mail or electronically; rather you may wish to visit our office and select the documents you would like copies of.

Alternatively, the Department of Army operates and manages Picatinny Arsenal and is the lead agency responsible for the Superfund cleanup. As such, Picatinny maintains the administrative record of Superfund documents which would be more complete than our records so you may want to examine their files. If you choose to do that, contact Ted Gabel who is the Army project manager in charge of the Superfund cleanup at Picatinny and he can be reached at (973) 724-5398.

If you have any questions regarding this FOIA response, please contact me at (212) 637-4335 or e-mail at "roach.bill@epa.gov".

Sincerely yours,

William A. Roach, P.E.
